

Federal Communications Comission:

I'm encouraging you not to take away K-love. Why, because K-love has a huge impact on my community and other communities. My church has an annual "fish fry," and k-love encourages so many people to attend. Furthermore, K-love is always encouraging others to follow Christ and be exmaples to non-believers. There's nothing like Christian music! Not only does Christian music uplift peoples spirits but it draws Christians closer to Jesus Christ. That's what our country needs...Jesus Christ! People have already taken prayer and Bibles out of schools; people were trying to take "In God We Trust" off of the United States currency. Why, because people are drawing away from God. Please don't follow in these peoples steps. Our country needs Jesus Christ, and our country is dieing for him! Don't take part in this. Everyone listens to K-love and says how positive and encouraging this station is. There's plenty of secular music out in the world, so please don't take away our Christian music. If you take away K-love, you will just be adding to the fall of America. Our country was founded on Christian principles. Yet, we let sin, the flesh, and satan draw us away from God. If you take away K-love, will you take away other Christian stations? OUR COUNTRY NEEDS JESUS!

Jesus first, Orlando +

P.S. I'll keep you in my prayers.
